

Privacy Policy

Neoreka Asia Sdn.Bhd. (hereinafter referred to as “our company”) is an IT (Information Technology) based company. By providing cheap and useful systems and high-quality communication means to more companies, we have contributed to the realization of today’s advanced information and communication society. Due to the rapid progress of the information society, the era in which a large amount of diversified information is processed rapidly is becoming important, and the protection of personal information is becoming an important social issue. Our Company recognizes the personal information of customers obtained through these business activities as one of the most important assets, and declares that it will endeavor to properly handle and protect personal information based on the following policy.

Comply with laws and regulations regarding the protection of personal information

We will comply with the laws and other norms regarding the protection of personal information and handle personal information appropriately.

Acquisition of personal information

When acquiring personal information, we will endeavor to clarify the purpose of use and will use legal and fair means.

Use of personal information

The acquired personal information will be used as long as necessary for the performance of the business within the scope of the purpose of use indicated at the time of acquisition, or within a range that is reasonably related to it.

Shared use of personal information

When sharing personal information with a third party, or when outsourcing the handling of personal information to a third party, we will supervise to carry out proper use of personal information.

Provision of personal information to a third party

Except as required by law, personal information will not be provided to a third party without the prior consent of the individual.

Management of personal information

We will strive to maintain the accuracy and up-to-dateness of personal information, establish a system for proper handling and management, and lose personal information. We implement necessary and appropriate information security measures to prevent tampering and leakage.

Disclosure / correction / suspension / erasure of personal information

If there is a request for disclosure, correction, suspension of use, or deletion of personal information, we will comply with the law only if we can confirm that it is the request from the individual.

Formulating a compliance program

In order to carry out this personal information protection policy, we will formulate a compliance program, thoroughly disseminate it in the company through training and education, and implement it, and maintain the best condition by continuous improvement.
